

manufacturers and exporters of dyestuffs and auxiliaries

AUXITECH INDUSTRIES

Auxitech Industries is a firm that is engaged in the manufacturing & exporting of premium quality textile dyes & auxiliaries. Auxitech Industries is a venture of a family business, engaged in manufacturing of textile reactive dyes since last more than decade. Since couple of years, manufacturing of Auxiliaries has been introduced with the brand name as "Auxitech". Our company has developed sound understanding of the market developments & is hence in a position to satisfactorily serve the market requirements. Nestled in Ahmedabad, India, we are offering a wide range of products that can be used to achieve desirable results. Known for manufacturing and supplying superior dyes & auxiliaries, we are seamlessly working to improve our products, to make it suitable to meet the ever changing and fast increasing demands of the market. The ingredients that constitute our products are sourced from reliable manufacturers who are trusted for their quality. Our every product has gained immense popularity in the market because of its effective features.

MANUFACTURERS AND EXPORTERS OF DYE STUFFS AND AUXILIARIES

Infrastructure

Auxitech is backed by a sound infrastructural base that is well equipped with advanced technology machines and equipments. Split up into various units, our robust infrastructural base is built over a large space. To enhance the business productivity, we continually upgrade the production facilities. Company has a centrally located corporate office nestled in Ahmedabad, Gujarat consisting high end lab facilities & departments for administrative, marketing & accounts.

Research & Development

At Auxitech, product quality is of paramount importance, it is also one of the reasons why our products have gained acceptance across all over and some of the world's most demanding customers. Testing for adherence to quality parameters is, therefore, an integral part of the manufacturing process. To ensure that our products conform to the highest quality specifications, we have set up laboratories at our plants & office, with state-of-art testing equipments.

Company utilize approx 9 to 10% of earning towards developing new products and improvement for the features of the existing products.

Our Service to Clients

Always we embrace a new paradigm of technological advancement that enables us to ensure the supply of quality products adhering to customer specifications.

- Strict in timely shipments / documentation
- Comply with international standards
- To provide premium customer service across the world
- To assess customer value
- To offer a wide range of products and services to our existing and future customers through an open door policy

Customer Areas

Wide ranges of products are being catered to the following areas.

- Fabric Pretreatment
 - Colouration
 - Textile Printing
 - Fabric Finishing
 - Garment Processing
- We are seamlessly working in the direction to serve some other industries like Paper, Leather Processing & Waste Water Treatment

Quality Assurance

Quality Assurance is a fundamental and non-negotiable part of the way, we do business. We continuously focus our manufacturing and allied practices on the concept of 'get it right - first time and every time'. To do so, our products, manufacturing process and equipments are often checked for quality standards and process deviations, if any.

Pre - Treatment Auxiliaries

Sequestering / Chelating Agents

Product	Ionicity	Description
Auxisequest A	Anionic	An organic sequester with excellent chelating action on Ca ⁺⁺ , Mg ⁺⁺ , Iron and for the treatment of hard water
Auxisequest N	Anionic	Highly effective demineralizer to eliminate heavy metals

Mercerizing Agents

Product	Ionicity	Description
Auximerce 100X	Anionic	Highly concentrated non cresylic mercerizing agent for cotton & its blends
Auximerce 50X	Anionic	Performance oriented wetting agent for effective mercerization of cotton substrate
Auximerce 20X	Anionic	Ready to use economic mercerizing agent for cottons & blends
Auximerce J	Anionic	Mercerizing agent specially developed in jelly form

Degreasing Agent / Stain Remover

Product	Ionicity	Description
Auxi's SR	Anionic	An effective stain remover cum scouring agent for the removal of oil, grease, carbon, waxes & rust stains on cellulosic, synthetic and blends

Wetting Cum Scouring Agents

Product	Ionicity	Description
Auxi's LF Conc	Nonionic	Low Foaming high performance wetting, scouring & rewetting agent
Auxi's LF Premium	Nonionic	Excellent emulsifying, and wetting agent specially developed for knit & woven fabrics
Auxi's LF Supra	Nonionic	Ready to use Scouring cum Wetting Agent for all type of fabrics
Auxi's Unistar	Anionic-Nonionic Blend	Excellent moderate foam desizing, scouring, anti-redeposit and grease removing agent with excellent wetting power for cellulosic and their blends
Auxi's OTL	Anionic	In Liquid form, Powerful wetting & rewetting agent
Auxi's OTP	Anionic	In Paste form, Powerful wetting & rewetting agent
Auxi's D-Paste	Anionic	An efficient wetting, scouring, dispersing agent with powerful emulsification properties with the extra benefit of fabric care applicable to wool, cotton, synthetics and silk

Peroxide Stabilizer & Killer

Product	Ionicity	Description
Auxi's HPS	Anionic	Non silicate type peroxide stabilizer. Non formation of silicate deposits, no equipment contamination
Auxizyme PK	—	Catalase Enzyme, capable of breaking down hydrogen peroxide into water and nascent oxygen and thus helps in removal of residual hydrogen peroxide after bleaching process

Anti - Crease Lubricants

Product	Ionicity	Description
Auxilube ACA	Nonionic	Lubricating agent to reduce crease mark for fabrics and in rope form, works in hard water and any type of machine
Auxizyme ACE	Nonionic	Phosphate Ester based Anticreasing Agent specially for Terry Towels to control weight reduction

Dyeing Auxiliaries

Levelling & Dispersing Agents for Cotton / Polyester / Wool

Product	Ionicity	Description
Auxi's CLA (For Cotton)	Anionic	Specially developed leveling for cellulosics, for reactive and direct dyes
Auxi's PLA (For Polyester)	Nonionic	Leveling agent for the high-temperature dyeing of polyester fibers. Blend of aliphatic ester, anionic and nonionic compounds.
Auxi's PAN (For Acrylic)	Cationic	Retarder & Levelling Agent for cationic dyestuffs, used in acrylic fibres
Auxi's WLA (For Wool)	Nonionic	Leveling Agent for 1:1 & 1:2 Metal Complex dyes & Acid dyes, used in wool and nylon
Auxi's DAN	Anionic	High temperature stable super dispersant for polyester dyeing

Soaping / Washing Off Agents

Product	Ionicity	Description
Auxi's SOF	Anionic	Excellent Soaping off agent for the dyed & printed fabric, polymeric based
Auxi's WOF	Anionic	Polymeric dispersant & washing off agent which prevents redeposition of washed dye on fabric
Auxi's RC-100	Weakly Anionic	Reduction clearing agent in acidic medium for polyester dyeing. Complete replacement for hydro-caustic

Dyeing Auxiliaries

Dye Bath Conditioner

Product	Ionicity	Description
Auxi's FSN	Anionic	Effective dye bath conditioner dispersant (protective colloid) along with chelating properties, washing fastness improver

Fixing Agents

Product	Ionicity	Description
Auxifix DFA	Cationic	Formaldehyde based, concentrated dye fixing agent for reactive & direct dyes to improve wet & rubbing fastness
Auxifix NFC	Cationic	Zero formaldehyde dye fixative agent, to improve washing, perspiration & staining properties
Auxifix DFA 4NF	Cationic	New generation, ready to use & economical eco-friendly fastness improver
Auxi's TFA for Turquoise	Cationic	Specially developed fixing agent for turquoise dyeing to inhibit bleeding issues
Auxi's FRN	Anionic	Fixing & Reserving Agent for Polyamide / wool fibers
Auxi's Loop Ace	Nonionic	A highly effective fixation assistant and nylator for use with disperse dye in printing of polyester and nylon

Other Dyeing Aids

Product	Ionicity	Description
Auxi's SAS	—	Soda ash substitute as an alkali donor for cotton processing with 1/4 to 1/5 dosage
Texacid Eco L	—	Eco friendly acetic acid replacement product , which acts as acid buffer in polyester dyeing
Texacid 350 (Y)	—	Core alkali neutralizer & acid buffer after dyeing of cotton and all type of fabrics

Printing Auxiliaries

Binders for Pigment Printing

Product	Ionicity	Description
Auxibind DLN	Nonionic	A high quality pigment printing binder with soft handle, excellent dry & wet fastness properties
Auxibind L-4	Nonionic	Premium pigment printing binder for all round fastness and very soft handle
Auxibind Eco	Nonionic	An excellent Eco-friendly, APEO Free binder suitable for pigment printing which prevents checking problem, also ensures good dry & rub fastness

Other Printing Aids

Product	Ionicity	Description
Auxi's Fixer XL	Nonionic	Cross linking agent for fixing pigment prints, low formaldehyde
Auxi's KBI	Anionic	Reactive print paste additive for improving absorbancy of dyes & preventing froth formation
Auxi's AG	—	Sodium Alginate gum for reactive printing
Auxi's RS	—	Resist salt for reactive printing
Auxi's Matrix	—	A state of art replacement of Titanium Dioxide for printing khadi manufacturing

Finishing Auxiliaries

Cationic Softeners

Product	Ionicity	Description
Auxi's CSF	Cationic	Hot water soluble non yellowing Cationic Softener in flakes form
Auxi's CSF (C)	Cationic	Cold water soluble non yellowing Cationic Softener in flakes form
Auxi's CF 10X	Cationic	Non yellowing cationic softener paste, ready to use
Auxi's CSL	Cationic	Liquid cationic softener concentrate, new generation product

Nonionic Softeners

Product	Ionicity	Description
Auxi's NSF	Nonionic	Non Ionic Softener in flakes form, used for white fabrics
Auxi's NS 10X	Nonionic	Non Ionic softener paste, ready to use

Finishing Auxiliaries

Silicone Softeners

Product	Ionicity	Description
Auxisil 60X	Nonionic	Concentrated Silicone softener based on modified siloxane gives soft and supple with antistatic property for all type of fabrics.
Auxisil 30X	Nonionic	Amino modified multi-functional micro emulsion for greasy surface and inner softness on wovens & knits
Auxisil 10X	Nonionic	Economic micro amino silicone softener
Auxisil ESS	Nonionic	Elastomeric silicone emulsion that imparts an ultra-soft hand-feel and surface springiness
Auxisil PSF	Nonionic	Silicone emulsion which imparts slippery surface in polyester fabrics
Auxisil RGS	Nonionic	Micro amino silicone softener specially designed for garments which ensures smooth surface with body breaking
Auxisil TTQ	Nonionic	Organo-functional micro emulsion designed for a soft hand, good white retention, along with good hydrophilicity, specially designed for terry towels

Other Finishing Aids

Product	Ionicity	Description
Auxi's NR	Nonionic	A durable full bodied resilient handle on cellulosic and synthetic / cellulose blended fabrics. It also improves resistance to thread slippage and pilling
Auxi's KVS	Nonionic	Reactant resin with built in catalyst, used for imparting crease resistant finish to cotton viscose and their blends
Auxi's PES	Nonionic	Polyethylene wax emulsion for improving tear strengths and abrasion resistance for knits

Denim Auxiliaries

Product	Ionicity	Description
Auxi's ABS	Nonionic	Anti-back staining agent for denims & garments to prevent re-deposition of indigo dyes
Auxi's DFV(N)	Nonionic	Alkal Stable high performance wetting agent & de-aerator for denim dyeing
Auxi's D-Shine	Anionic	Shining agent that emulsifies dirt, wax and grease from the vulnerable part of the fabric & looks the surface shine
Auxi's PPA	Nonionic	Excellent bleacher (potassium permanganate) activator for garment washing
Auxi's PPN	Nonionic	Excellent bleacher (potassium permanganate) neutralizer for garment washing
Auxi's DDF	Cationic	Fixing Agent used in denim for improving washing fastness of Sulphur & Indigo dyes

Add On Specialties

Product	Ionicity	Description
Auxi's WR	Weakly Cationic	Fluorocarbon chemical resin emulsion based C-6 chemistry which can impart durable water and oil repellency to synthetic fibres and natural fibres
Auxi's FR-PC	Mildly Anionic	Ready to use non halogenated water based liquid flame retardant for the treatment of polyester and polyester cotton blend fabrics, which is non-corrosive & nontoxic
Auxi's FR-C	Mildly Cationic	Non halogenated ready to use water based flame retardant for the durable FR treatment of 100% cotton fabrics, which does not affect the texture of fabrics
Auxi's BLL	Nonionic	Blooming Agent which enhances the depth and clarity of dark shades especially disperse blacks
Auxi's AZS	Cationic	Antiozone Softener, specially developed for Denim

Our Team

We have a team of highly qualified and experienced professionals, who monitors and helps in achieving the goals in the areas such as manufacturing, analysis, marketing, administration and documentation. Our committed team professionals are capable to manage their respective areas with high efficiency.

Mission

Our mission is to support the continuous growth of our customers through the use of innovative technologies.

We are always focused to provide consistent quality along with the best possible prices.

At AUXITECH, the long-term relationship created with clients allows us to better identify their problems and needs.

With the combination of industry expertise with customer focused service, we are able to provide products and services at tailored need.

Business Ethics

Company has been founded on the bedrock of impeccable values and ethics. AUXITECH takes every effort to ensure that it upholds these beliefs. All employees of the company are required to comply with the Code of Conduct & Ethics to ensure them to act in a manner consistent with the company's values. The Company has implied the process and systems with spiritual and intent of the law with moral code under which it operates and out comes.

At AUXITECH, the standards have been, and will continue to be, that of the highest ethical conduct.

Environment Friendliness

A "green business" AUXITECH strives to have a positive impact on the environment and community. It develops and practices business strategies that go beyond regulation and demonstrate commitment to a healthy and sustainable future for the fore coming generation. AUXITECH adopts principles, policies, and practices that improve the quality of lives for customers and employees. Our operators and manufacturing systems ensure the care for environment.

It is well said that "Green Earth is a Grand Earth".
